The Board of Education started a movement on Tuesday night which will insure the beginning of the construction of the new High School building at an early day. A resolution was adopted authorizing the Finance Committee, if, upon investigation it is found that a portion of the \$60,000 in bonds voted in May last can be sold to advantage, to dispose of \$10,000 of the bonds in order to provide the Building Committee with money to begin work without embarrassment to the city. I considered best to begin the work of excavating for the foundations of the building in a favorable season, in order that they may be finished to above ground level before the winter season begins. If this is done then there will be no interruption of the work during the cold weather. The contract for the construction of the building will be given to Dawson & Archer. The Board voted a week ago to put in the Peck-Williamson heating and ventilat-ing system and the improved sanitary work. The High School Committee has completed the draft of the curriculum for the High School, which provides four years' course, and thus establishes a high school that will be recognized by the Board of Regents of the University of the State of New-The Board has approved of the action of the committee, and the new courses will begin with the school year next week. This bond is issued under authority of the last Legislature to meet the expenses of the special commission appointed to investigate and report upon the water supply of the city to meet the requirements of the increasing population. The proposition is for the city to own and control its own waterworks, instead of depending upon the present system of a private corporation, and to insure a supply for treble the present population. An accident, which may prove serious, occurred yesterday morning at the home of Max Fleischmann, in Prospect-ave. Mrs. Fleischmann had gone away from home, leaving the children, Mattida, five years old, and her little brother, seven years old, upstairs. The children evidently played with matches, for in a short time the servant heard screams, and rushing upstairs found the little girl enveloped in flames. The servants, after some enveloped in flames. The servants after some edelay, secured a pail of water and dashed it over the child and extinguished the flames, but she was so badly burned that it is doubtful if she can recover.

The Democratic County Committee met in this village yesterday morning for the purpose of taking action upon the resignation of Chairman Francis Larkin, jr., of Ossining. Mr. Larkin, who is one of the brightest young Democrats in the county, is a pronounced sound-money man, and as a majority of the county committee is in favor of the free silver plank of the Chicago platform he thought it best, in the interest of harmony, to send in his resignation. At the meeting of the committee Chairman Larkin's resignation was accepted and Eugene B. Travis, of Cortlandt, was unanimously elected to fill the vacancy. It is understood that the Democratic leaders of the XVIth Congress District, of which Westchester County is a part, will advocate the nomination of a free silver candidate this fail, and William Ryan, of Rye, is being mentioned for and William Ryan, of Rye, is being mentioned for the nomination. While most of the leaders of the party in Westchester County are for free silver, it is a well-known fact that the rank and file of the party in the county is in favor of sound mency, and will make the preference in this respect strongly felt at the coming election.

In the three days it has been in session, the Grand Jury has disposed of eighteen cases, and yesterday there were still forty cases to be considered. On account of the great amount of business to be transacted in the District-Attorney's office in preparing testimony for the Grand Jury the office will be delayed in the preparation of criminal cases to be tried before the county court, which reconvenes on Monday, and it is probable that the court will adjourn on that day until the 21st inst., when the criminal calcular will be taken up.

Frederick Smith, nineteen years old, was yesterday found unconscious sitting in a chair in the office of Smith Kerr & Co., coal and lumber dealers, of which his father is the senior partner. The young man's face was covered with a handkerchief which was saturated with chloroform and a half empted bottle containing the same drug was found on the floor beside the chair in which he sat. On the desk beside the young man lay two letters. One was addressed to his mother, and the other to Miss Gracia Cannon. The unconscious young man was hurried to his father's house and doctors were called. Smith soon revived, and his first words were: "I have not taken chloroform." He is still too weak to talk or to be questioned. Miss Cannon, to whom the second note was addressed, is eighteen years old, a daughter of H. H. Cannon, a feed merchant. Both families are well-to-do Smith and Miss Cannon are engaged to be married, the date of the wedding being about two years off Miss Cannon lives at Irvington. At the Smith house all information was denied. The contents of the letters to his mother and sweetheart are unknown. No reason is known why the young man should want to die.

The trouble between the paid and volunteer firemen of this city is assuming serious proportions. The paid men went on duty only a week ago Tuesday, and since then several of the volunteer firemen have refused to recognize Chief Mulcahey's authority, and say they will take orders only from Mr. Stahl, who was the chief engineer of the volun-

Upon her arrival in this port the Bermuda was turned over to Captain George W. Brown, who will, it is understood, control her in the future, if he does not actually act as her captain. Captain Brown has conducted a real estate business at No. 371 Fulton-st, Brooklyn. It is said, also, that Captain Brown is bart owner of the Bermuda, and he declares that he has a power of attorney from her other owners, who are not positively known.

Captain Brown, it is reported, applied some time ago to the Cuban Junta for the privilege of operating the Bermuda, and from what happened yesterday it seems that he has obtained his request. The captain called yesterday afternoon at the office of Yates & Porterfield, No. 19 William-st. Mr. Yates is the Liberlan Consul in New-York, and from his office it was learned that captain Brown had applied for a Liberlan registry for the Bermuda. Mr. Yates had not yet decided whether he would grant the application or not. Should he do so, there is nothing to prevent the Bermuda from sailing whither she lists.

Captain Brown, it is said at the Junta, was of material aid to the Cubans during the Ten Years War, having controlled the steamers Virginius. Hornet, Mary Lowell, Anna, Perrit and others, which carried help to the Cubans.
